● *Independence Day & Krishna Janmashtmi*

This year Independence Day and Krishna Janmashtmi fall on the same day. The celebration started with enchanting Gopala bhajans. The flag hoisting and cultural program were organized to celebrate Independence Day. All the students participated in different recreational activities. The participants spellbound the audience with their performance. Prizes were distributed to the young achievers for outstanding performance in studies and other co curricular activities. The merit holders of 8th board exams received blessings and sewing machine as vocational support.

- *Letter Walk*

Each student goes to an EMPTY letter drawn on floor and stands there. Teacher calls randomly on children and asks what letter they are standing on. Students able to perform the locomotor skills and call out what letter (or number) they have landed on.

- *Maths Lab.*

Pre- primary - Math Mat Activity

- Making spatial patterns

- Counting and number sense
- Small number facts till 5
- Small number addition and subtraction
- One to one correspondence
- Recognizing colors and classifying on basis of color

Grade 1- Counting on Stringing beads

- One to one correspondence
- Using counting words

Grade 2- Digit Card Activity

- Forming greatest and smallest numbers using given digits
- Reading and writing multi-digit number

- *E-learning*

Kids learn more about the concepts by seeing pictures and videos related to it. Our teachers help the students to better understand the concepts through e- learning.

- *Poster making Tall Short; Up Down*

This month grade 1st students made posters of tall- short and up-down. Poster making helps students to picturize the learned concepts.

- *Shapes Activity*

The students of grade 2nd participated in group activity of learning shapes around them. They have collected all the materials and learned to identify the shape of these with the help of teacher.

- *Plants identification*

Pre primary kids took a trip of Sford garden with the objective to learn more about environment. They observed and analyze the color, texture and fragrance of different leaves.

Thanks
